Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I in Paper No. 10 is acknowledged. The traversal is on the ground(s) that the search and examination of the entire application can be made without serious burden on the Examiner, as described at MPEP § 803. Applicant further notes that both independent claims 13 and 31 recite a ski or snowboard that includes a superelastic component that provides an elastic response of the ski or snowboard to a deflection. This is not found persuasive because as set forth in the restriction requirement of the previous Office action (Paper Number 9), a *prima facie* showing has been made of the serious burden by appropriate explanation of separate classification, separate status and different field of search as defined in MPEP § 808.02. Just because a common limitation exists between two different independent and distinct inventions does not by itself show how the search and examination of an entire application can be made without serious burden. Unless applicant intends to assert that because of the common limitation to both independent claims 13 and 31 that the claimed inventions are obvious over each other within the meaning of 35

Art Unit: 3711

USC 103, the *prima facie* showing of serious burden has not been overcome.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 31-34 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 10.

3. Upon reconsideration, it is noted that the remaining claims are further restrictable. It is regretted that the applicability of this restriction to the claims was not earlier realized.

4. This application contains claims directed to the following patentably distinct species of the claimed invention:

- a. Figures 3a-3c;
- b. Figure 3e;
- c. Figure 3f;
- d. Figure 3g;
- e. Figure 3h;
- f. Figures 3i-3k;
- g. Figure 3l;
- h. Figures 3m-3n;

i. Figure 3o.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 13 appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the

Art Unit: 3711

case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
